OMNI CHANNEL

Plexus's service-oriented architecture allows you to serve different user groups via different channels and devices. Using the Plexus user interface or by connecting your own portals/apps and future digital business models directly on top of Plexus's service API's.

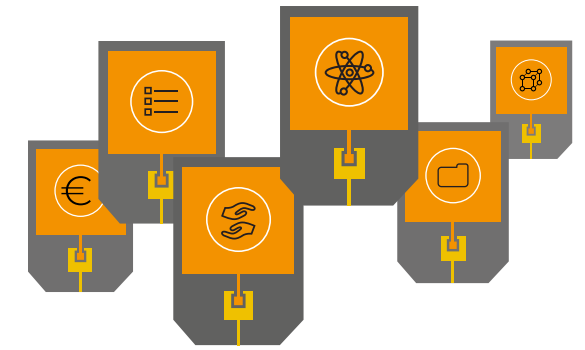

Plexus's strength lies in its ability to smoothly integrate with existing systems, interfaces and other internal/external integrations.

CUSTOMER CENTRIC

With Plexus you can offer advisors and customers a 100% digital platform to manage applications, policies and claims quickly, easily and secure.

PLEXUS: DESIGNED FOR STRENGTHENING YOUR BUSINESS

MODULES TO INDIVIDUALISE YOUR SYSTEM

Plexus comes with a series of add-on modules to ensure complete solutions for large and small pension providers alike. There are modules for handling various situations in relation to workflow, receiving and paying money, reporting, legal parties, claims, documentation and more. You can choose to use any number of modules, selecting only those required relative to existing functionality and business needs.

BUSINESS AGILITY

With straight-through processing, Plexus enables insurers and pension providers to handle quotes, policy applications and alterations quickly and efficiently. New products are easily launched, and complex business processes are handled within minutes. Giving you the business agility that is needed for a truly digital pension provider.

RISK & COMPLIANCE

Meeting constantly changing rules and regulations and industry standards can be difficult and expensive. As a leading software vendor in the pension market, Keylane enables its customers to fully comply with the latest rules and regulations.

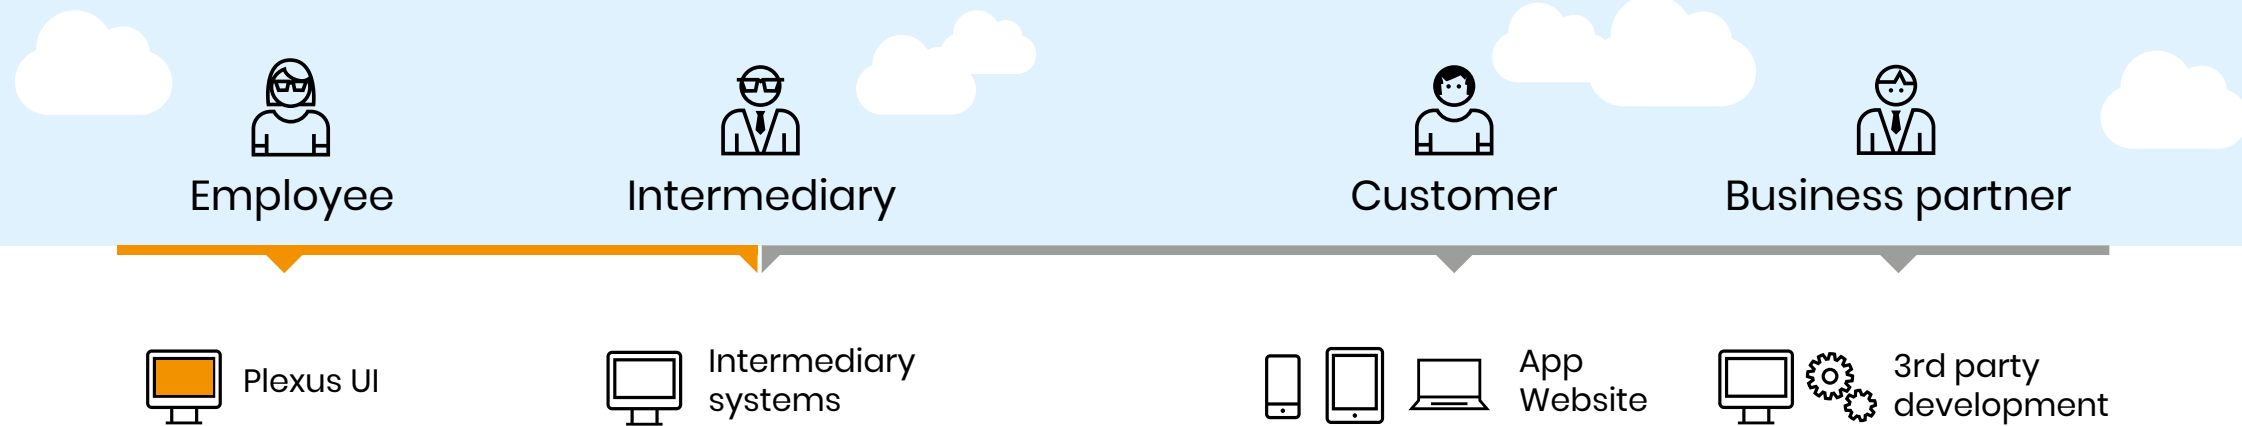

COMPLETE TRACEABILITY AND CONTROL

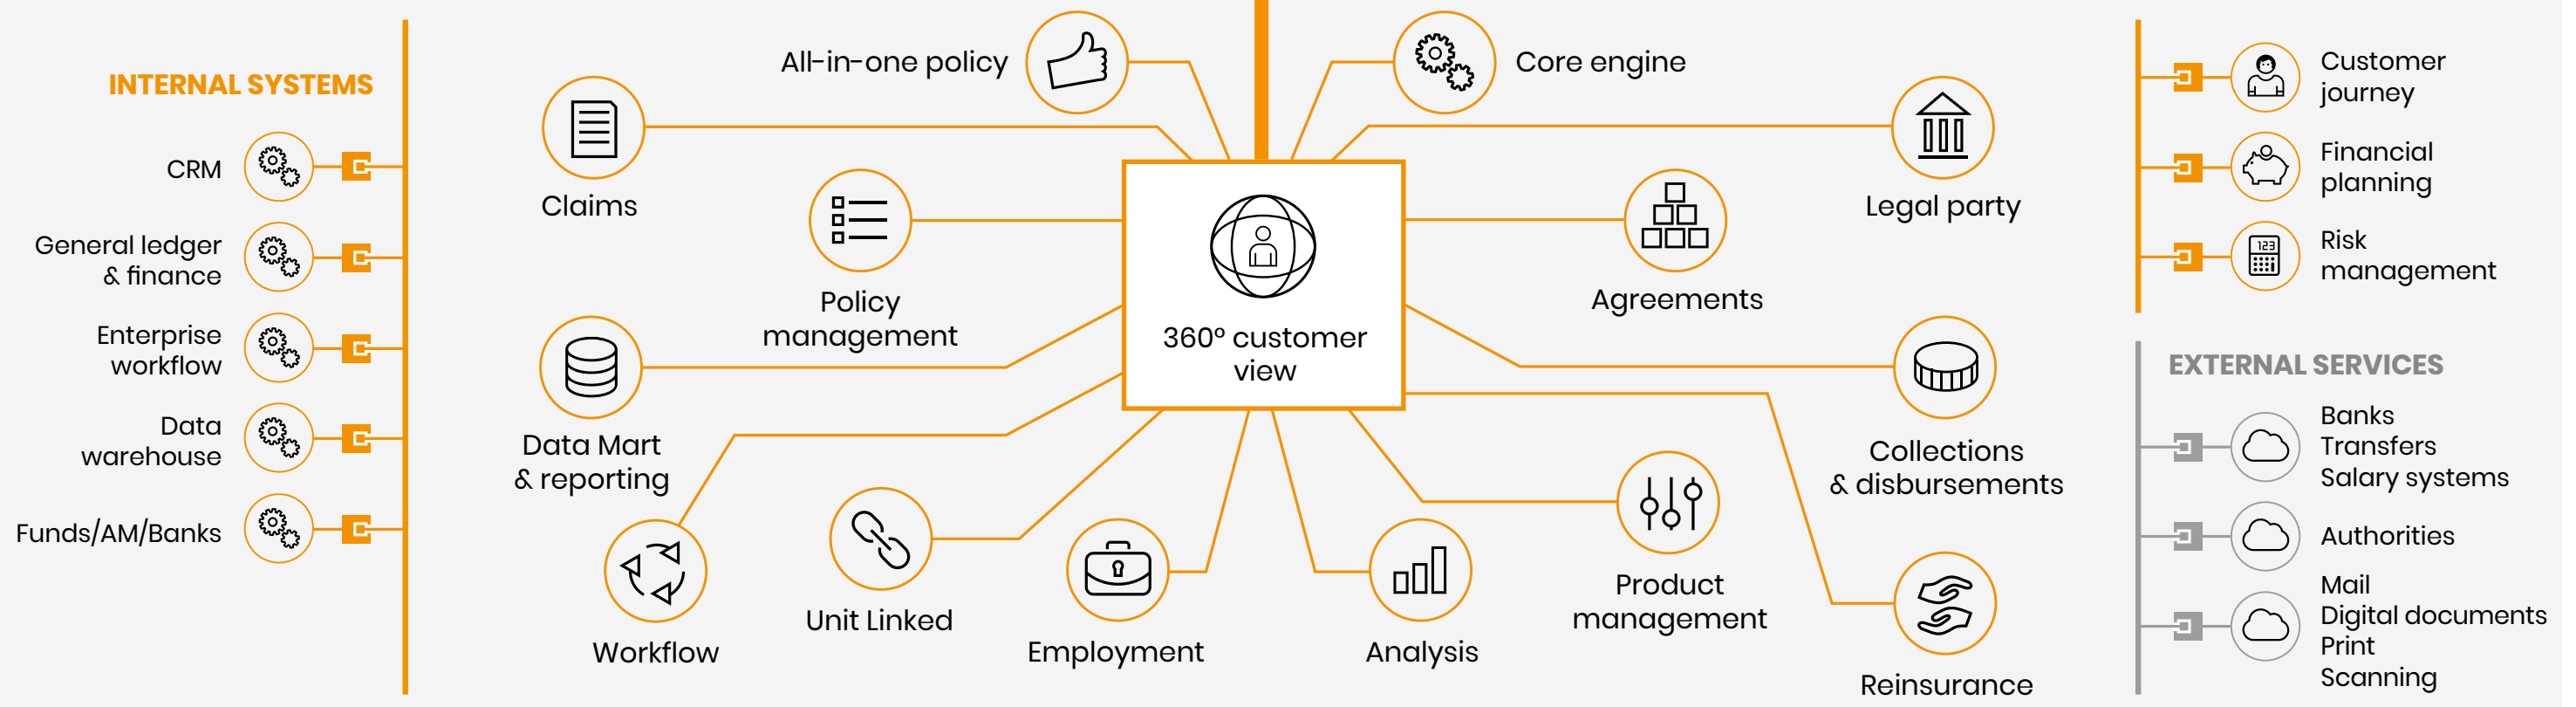

All transactions are composed of events, and this approach provides users with full control over accounts through convenient undo and redo options, and complete traceability of account history.

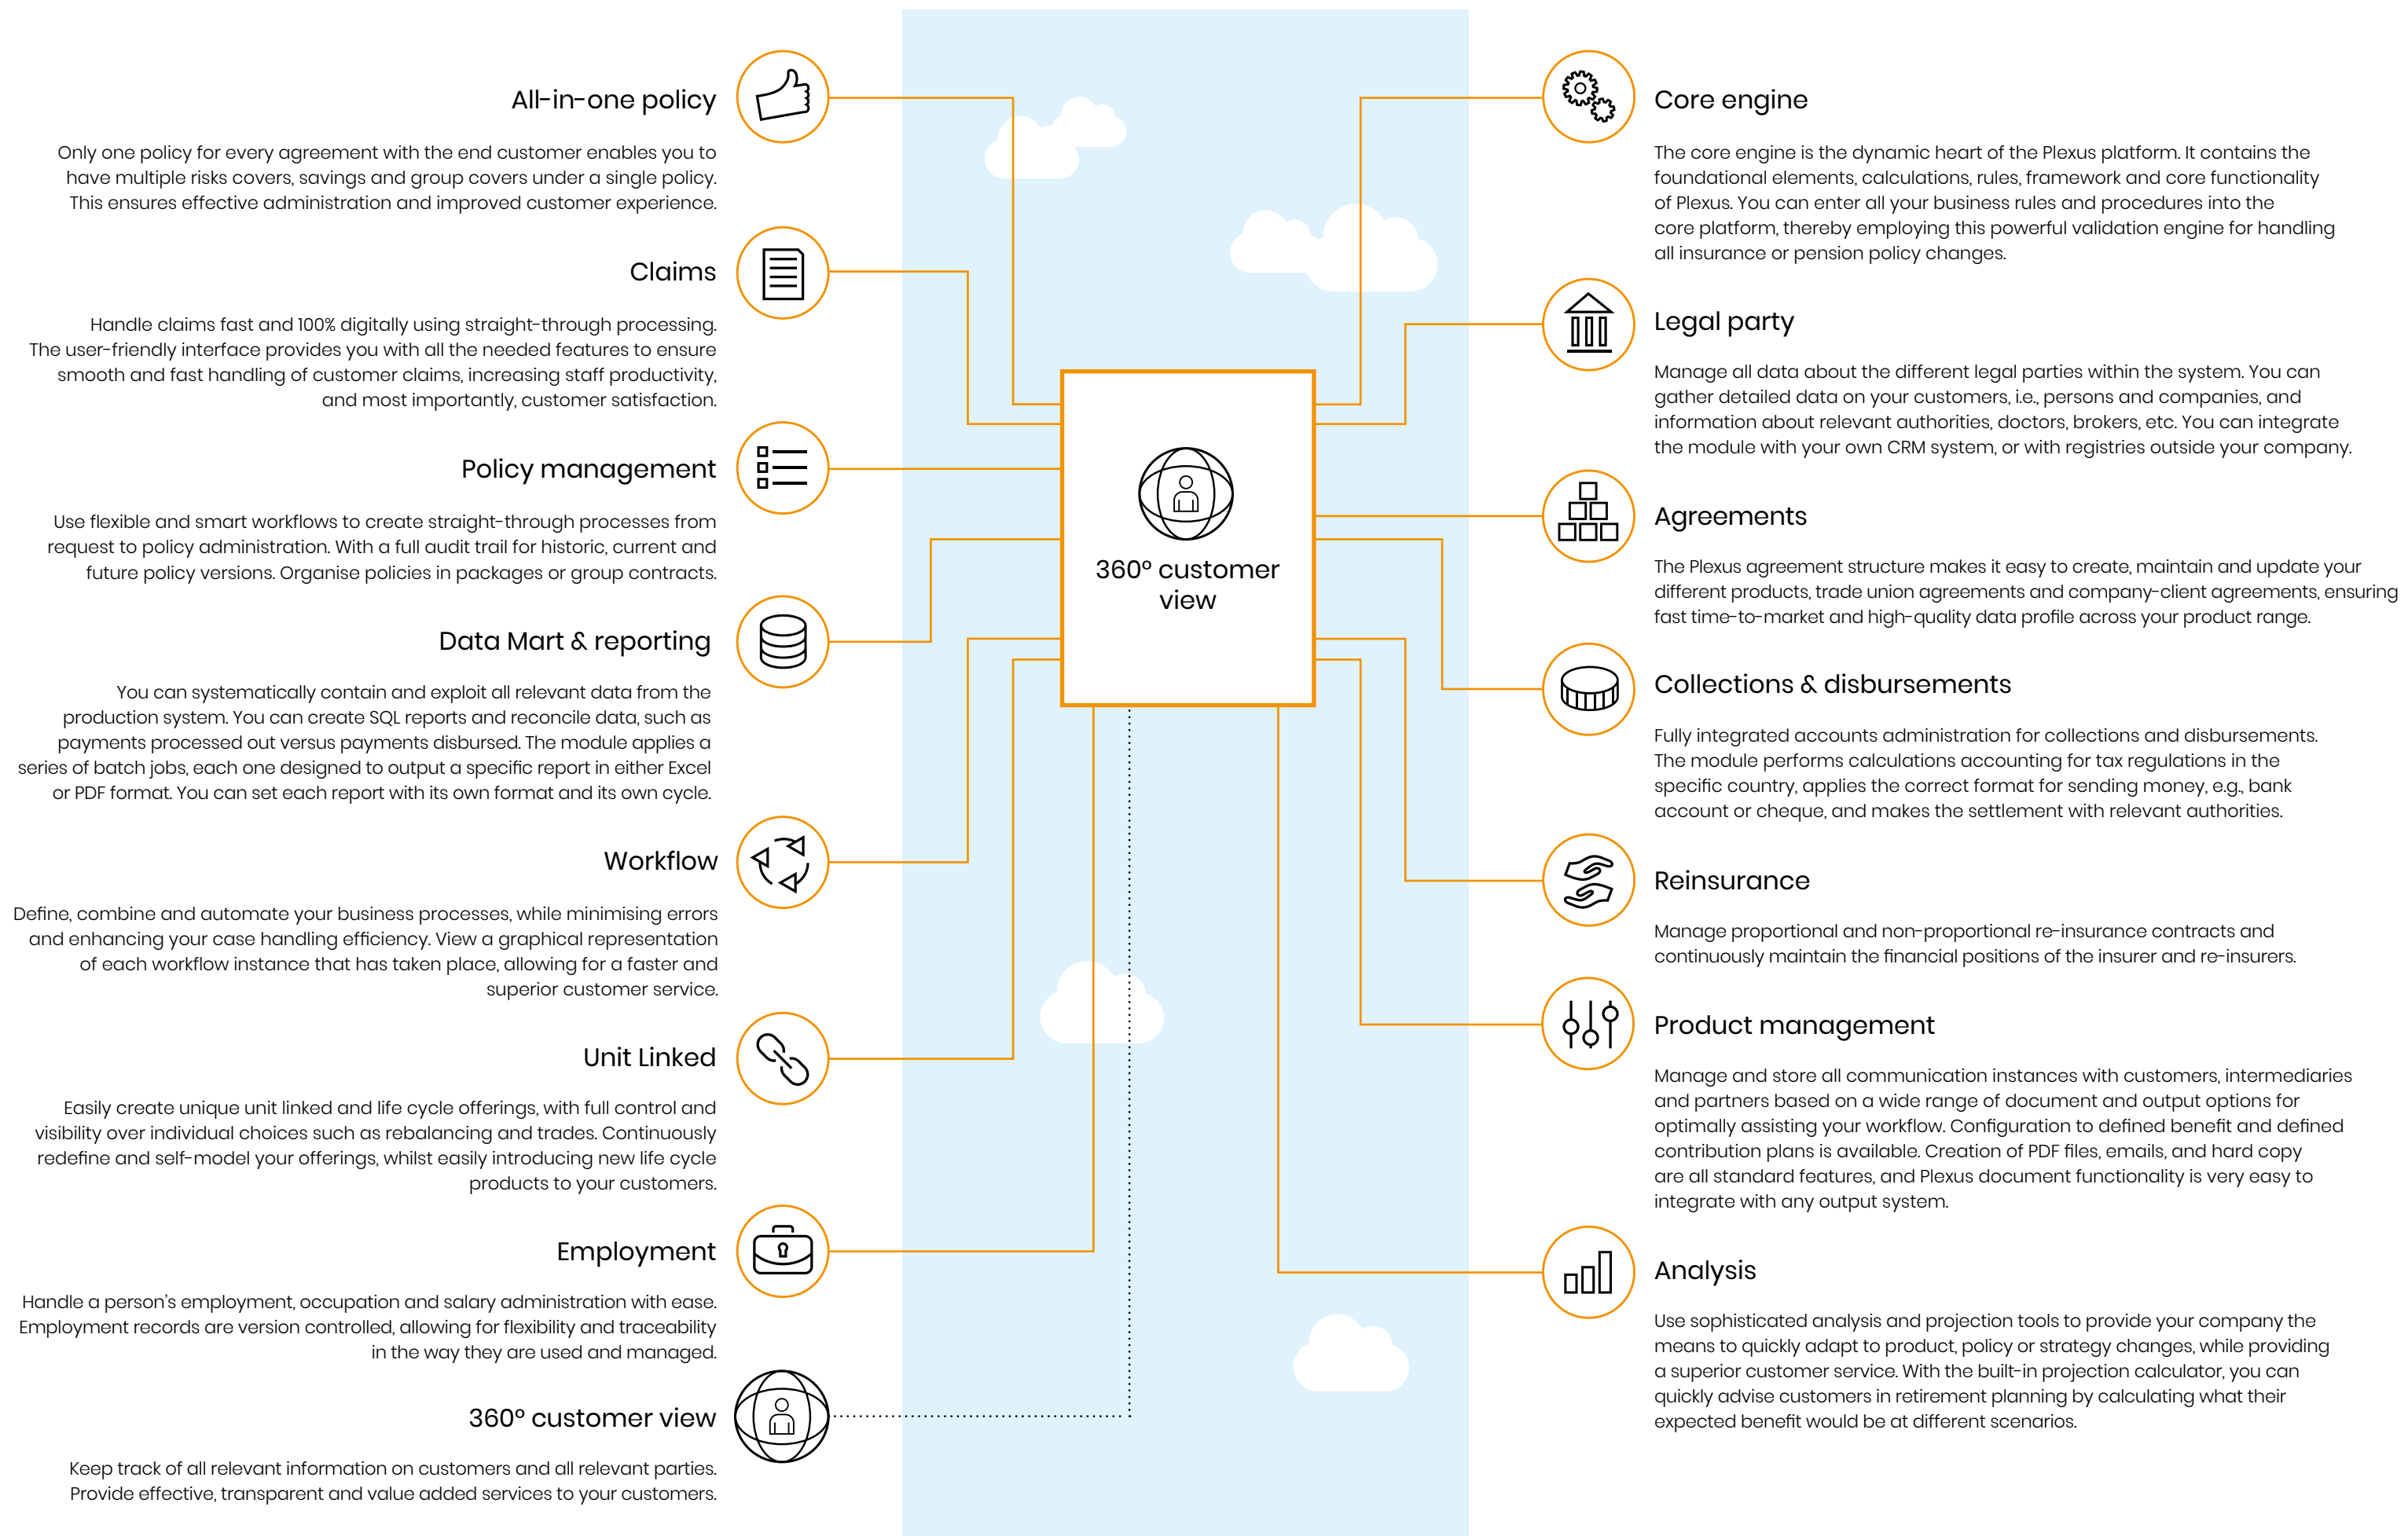

Plexus empowers the pension industry to change through technology. The landscape changes, so does the way we interact.

Make use of 100% web-based software in a secure private cloud environment. Robust, scalable and fully integratable with your own application landscape. No need to worry about installation, configuration, performance, upgrades, maintenance or disaster recovery - we take care of it.

PLEXUS SERVICE LAYER

If you want to go fast, go alone. If you want to go far, go together.

We believe software implementation is a team sport. Making Plexus work best for your company, tailoring it to your processes and integrating it with your systems, asks for a close cooperation. With a dedicated implementation team of experienced insurance and pension consultants, and the best practices we have developed over the years, you are assured a smooth implementation of Plexus. We challenge our customers and want them to challenge us back to achieve the best possible solutions.

CONSULTANCY

Keylane consultants are fully focused on the insurance and pension industry, with over twenty years of experience in these sectors and a specialist approach for each segment. They always keep a keen eye on new developments in the market and the opportunities they offer you. Our consultants work closely together with you to prepare comprehensive business cases for the implementation of Plexus or new Plexus functionalities. Always aiming at clear and measurable business benefits in terms of reduced time-to-market of new products, IT cost cutting, and higher customer satisfaction figures.

IMPLEMENTATION

At Keylane, we have over twenty years of experience in software implementation within the complex environments of major insurers and pension providers. In over 90 successful projects we have developed an effective, standardised work process that we continually improve and update with every new project. An agile approach based on active user involvement and risk reduction through best practices, that guarantees predictable project deliverables and fulfilment of your business goals. Based on well-known various IT development methods.

MIGRATION

When implementing a new software platform, data migration can become a challenging and expensive affair. That is why we have a dedicated competence centre for data migration, that helps our clients to carry out migrations in a completely controlled way. Converting data using a proven, standardised and fully automated method with intensive testing of the design, the performance of the migration and the conversion software before migrating your actual data.

HIGH CUSTOMER SATISFACTION AND LOW ADMINISTRATIVE COSTS

“The implementation of Keylane Plexus has made it possible for us to focus on the strategic development of our business. We have streamlined our business processes and given our customers exceptional self-service opportunities – we are now among the companies with the lowest administrative costs in the market.

In our day-to-day work with Keylane, we experience a business partner that understands the industry and knows what steps to take to strengthen our business. This innovative and challenging approach of Keylane sets new standards.”

Søren Kolbye Sørensen, CEO at DIP

#KEY TO SUSTAINABILITY

ALL-INCLUSIVE HIGH STANDARD PENSION ADVISORY

“The launch of “Pensionstjek” has strengthened Sampension’s efforts to deliver an all-inclusive, high standard pension advisory. All necessary financial conditions are included when the advisory is tailored to the customer’s individual needs and life situation.

With “Pensionstjek” Sampension will strengthen its position and become market leading among labour market pension providers.”
